FROM POGGIO BERSANO TO LA LIMA

Easy itinerary almost all downhill. It starts from Margine di Momigno, located on the watershed between Ombrone and Lima. The place is reachable from Pistoia both by car (first taking the SP17, then the SS633 Mammianese towards Prunetta), and by bus taking line 54 of Copit to San Marcello P.se, and from here line 70 to Prunetta. From Mammiano low suspension bridge, you can return taking the SS66 up to San Marcello and again take line 54, and return to Pistoia, or by line 70 to Margine.

Notes: Very shady itinerary. Since there are bike assistance points we recommend bring the necessary equipment to mend punctures or for other possible mechanical problems.

Main places passed: Prunetta, Prataccio, Piteglio, Mammiano basso

Points of interest: Piteglio hamlet, beechwood between Margine di Momigno and Prataccio, and suspension bridge

Water supply: easy thanks to the springs along the itinerary

Mechanical assistance points along the itinerary: none

Recommended period: from May to October

Type of street surface: 100% asphalted

Type of bike: with bicycle gear

Level of difficulty: easy

Length: 16.5 km

Altitude range: 106 m.

Travelling time: 3 h.
